EDUCATION

Arizona State University B.A., Media Arts and Sciences

EXPERIENCE

Love Behavioural Services, Phoenix, AZ

Product Designer (June 2025- Present)

- Designed end-to-end UX for a custom CRM platform serving behavioral healthcare providers, making deliberate decisions around information hierarchy, accessibility, and workflow efficiency to reduce cognitive load for clinical staff.
- Established a reusable component library and UI pattern system to ensure consistency across **20+** features as the platform scaled.
- Redesigned **10+** documentation workflows — simplifying forms, reducing redundant fields, and adding clear confirmation states — resulting in a **60% reduction** in manual documentation and **~2–3 hours** saved per day.
- Synthesized user feedback and needs analysis to identify friction points and drive product improvements that measurably increased operational efficiency.

Roadmap, Austin, TX

UX/UI Design Intern (Dec 2024- May 2025)

- Redesigned onboarding flows using behavioral psychology and iterative prototyping- restructuring the sequence to lead with value before asking for commitment- driving a **100% lift** in notification opt-ins
- Improved daily active users **by 15%** through usability testing and journey analysis, eliminating key drop-off points in core flows
- Collaborated with product and engineering to translate research insights into high-fidelity Figma designs, balancing user needs with technical constraints

PROJECTS

Disordered — Mindfulness Web App

- Led end-to-end UX design for an 8-month capstone, owning research, wireframing, prototyping, and project management across web and mobile.
- Designed deliberate interaction patterns and accessible experiences for users managing anxiety, receiving recognition at ASU's end-of-year showcase and featured in ASU's newspaper.

Rock Solid Church — Website

- Led discovery, information architecture, and responsive design for a custom church website, translating a Figma mockup into a production-ready build using HTML, CSS, Bootstrap, and React
- Made mobile-first layout and navigation decisions to ensure an accessible, intuitive experience across all devices

SKILLS

Design: Figma/Sketch, Adobe CS, Wireframing/Prototyping, User Flows, Information Architecture, Design Systems

Technical: HTML/CSS, React, Responsive Design

Research/Product: User Research, Usability Testing, Data Analysis, Product Strategy, Cross-Functional Collaboration
